

St Stephen's Global

LEARNING WITH OUR WORLD

Dear supporter

St Stephen's Global is the international arm of St Stephen's School that focuses on student service learning experiences in the Indian Ocean Region. Our aim is to develop within our students a global perspective and a heart for serving others by creating service learning opportunities in less developed countries in the region.

One of these student tours will visit Bali, Indonesia in July 2019 and work with a local aid and development agency called the Bali Life Foundation. Our students will provide service to the Bali Life Foundation orphanage, outreach street centre, sustainable farming project, day-care centre, school for street kids and community training centre. In addition to this service our students will learn much about Balinese culture as well as regional development issues in Indonesia.

In order to assist with these very worthy initiatives, our students are running a Quiz Night on 10 May 2019 and are seeking donations for prizes. All donations will be verbally and visually acknowledged to the audience during the quiz night. We are expecting about 180 members of the school community at the quiz.

We would be very appreciative if you could assist in this matter by donating goods and/or services to this cause. If you are able, please complete the accompanying slip to record details so we can appropriately acknowledge your help to St Stephen's Global.

Thank you for your assistance in this matter.

Your sincerely

Dr Mark Fielding
Director of Global Programs
