TRY A TRADE

Interested in the construction industry, but unsure if it’s the career for you?

Skill Hire offers a fun and interactive three day Try A Trade program delivered by specialist trainers who have been providing quality training to the construction industry in Carpentry & Joinery and Bricklaying / Blocklaying trades for over 15 years.

The program is aimed at providing students with some insight into the construction industry and give participants the opportunity to make informed decisions as to whether this may be a career they wish to pursue.
The following topics are covered during the Try A Trade:

- Basic understanding of OHS standards, tool box meetings and site signage
- Workplace behaviour, verbal communication and workplace expectations
- Hazard Identification and Risk Assessment
- Planning, prioritising and organising work tasks
- Personal Protective Clothing and Equipment

Students will also have the opportunity to ask industry specific questions.
